PROJECTS

Portfolio Website | *HTML, CSS, JavaScript*

Apr 2024

- Developed and designed a personal portfolio website utilizing HTML, CSS, and JavaScript to showcase projects, skills, and experiences.
- Implemented a responsive design for optimal viewing on various devices, including mobile phones, and incorporated both light and dark modes to enhance user experience and accessibility.

Avengers Careers Website | *Python, Flask, MySQL, HTML, CSS, JavaScript*

Apr 2024

- Developed a dynamic career portal using HTML, CSS, and JavaScript, integrated with Python Flask and MySQL backend.
- The platform enables users to explore and apply for job opportunities within the Avengers Initiative, storing applicant information securely in the database.
- Implemented features include job listings, user authentication, and data management, showcasing proficiency in full-stack web development and database integration.

RoosterTunes - Discord Music Bot | *Python, Discord API*

Apr 2024

- Developed a Discord music bot using Python and Discord.py library.
- Integrated YouTube DL for seamless audio streaming from YouTube URLs.
- Implemented commands for controlling music playback in voice channels, including play, pause, resume, & stop.

Memory Match Game | *HTML, CSS, JavaScript*

Apr 2024

- Developed a memory color matching game using HTML, CSS, and JavaScript. The game challenges players to match pairs of colored tiles hidden on a grid.
